

The pool contract's account, funded with 1.000000 ALGO

Spendable

514,300 μ A

all an inner Payment can send

Free.

This is the only part the contract can move.

One box — 200 B, 8 B name

85,700 μ A

Created the LP token

100,000 μ A

Opted into asset B

100,000 μ A

Opted into asset A

100,000 μ A

The account itself

100,000 μ A

Locked.

485,700 μ A. Still yours, still in the balance the explorer shows you, and not available to spend.

Delete the box, or opt out of an asset, and that much unlocks again.

A fee is spent and gone. A minimum balance is not spent at all — it raises the floor the balance may never fall below. Fund a contract for its fees and forget its floor, and the first call that would dip under it fails.
