

The pool contract’s account, funded with 1.000000 ALGO

Spendable
514,300 μ A
all an inner Payment can send

One box — 200 B, 8 B name
85,700 μ A

Created the LP token
100,000 μ A

Opted into asset B
100,000 μ A

Opted into asset A
100,000 μ A

The account itself
100,000 μ A

Free.
This is the only part the contract can move.

Locked.
485,700 μ A. Still yours, still in the balance the explorer shows you, and not available to spend.
Delete the box, or opt out of an asset, and that much unlocks again.

*A fee is spent and gone. A minimum balance is not spent at all — it raises the floor the balance may never fall below.
Fund a contract for its fees and forget its floor, and the first call that would dip under it fails with “balance below min”.*
